Student Name:-A.M.N.Abeysekara

Description:

Alien Onslaught challenges players to defend Earth from an unrelenting assault by extraterrestrial birds. As a skilled pilot, your mission is to engage in intense aerial combat, using advanced weaponry to repel the alien threat. With each passing wave, the stakes escalate, demanding quick reflexes and strategic thinking to survive. Can you withstand the relentless onslaught and save humanity from extinction? Take to the skies and find out in Wings War: Alien Onslaught

Instructions:

- The game features a continuously moving plane that automatically shoots downward.
- Your objective is to control the plane's upward movements by tapping the left side of the screen.
- Shooting is done by tapping the right side of the screen.
- Survive as long as possible by shooting down enemy targets that appear on the right side.
- Earn points by destroying enemies.
